

## Solar Panel Seam Gasket

**Eliminate the gaps** and protect the area below your outdoor living space from sunlight and rain by installing weather stripping between your PV Modules. If you are installing our solar canopy, solar carport or solar awning systems this product prevents water from dripping between the solar panels.

**Press-in Seam Gasket** accommodates gaps between panels ranging from .25 to .75 inches

**Glue-on Intersection Cap Gasket**

Not intended for sealing interior living spaces as defined under the IBC 2012-15 code.
